Donald Williams

Junior Mobile Engineer
cheyennesanchez@example.net | 2645102559 | Jenniferburgh, Samoa

SKILLS

Swift • Kotlin • iOS Development • Android Development • Mobile CI/CD • GitHub Actions • Fastlane • Jenkins • REST APIs • SQLite • Offline Data Sync • HIPAA Compliance • UI/UX for Mobile • Automated Testing

EXPERIENCE

Junior Mobile Engineer — CareBridge Health
March 2025 – Present
Developed native iOS features in Swift and Android features in Kotlin for patient portal and care coordination. Implemented automated mobile CI/CD pipelines using GitHub Actions and Fastlane, reducing release cycle from 14 days to 4 days. Improved app reliability and performance by monitoring crash analytics, achieving a 25% reduction in crash rate.

Mobile Engineer — MediPath Solutions
June 2023 – February 2025
Collaborated on cross-platform features for a HIPAA-compliant patient management app using Swift and Kotlin. Built and maintained automated pipelines with GitLab CI, enabling faster feedback and more reliable releases. Implemented offline data sync to support patients in low-connectivity areas.

Mobile Software Engineer — WellCare Analytics
January 2022 – May 2023
Developed mobile features for a healthcare analytics app using Swift and Kotlin, focusing on performance and data security. Integrated CI/CD with Jenkins and GitLab to streamline builds, tests, and deployments. Implemented secure data storage and offline capabilities to improve access to patient data in remote settings.

EDUCATION

BSc in Computer Science
Seabrook University
Graduated: 2023
